**CANDIDATES START WITH  
IMPACT Frameworks for Teaching  
as a pre-service candidate**

Intern Programs have 160 hours pre-service requirements (Reference CA EdCode Sections 44259, 44325, 44328, 44830.3). Our program has identified a course we refer to as IFFT (IMPACT Frameworks for Teaching) to fulfill those requirements. The course consists of six modules plus an English Learner component. This pre-service course is one of the requirements that must be fulfilled before transitioning as an intern.

Candidates who intend to join our District Intern Program can take these modules at any time. All that is needed to submit an application to our program is a bachelors degree or higher. After applications have been processed, we send a letter confirming enrollment in the next IFFT and enclose a schedule.
